Magnit is one of Russia’s leading retailers with over 20,000 stores in over 3,000 cities and towns across the country. Magnit's activities cover three key areas: we are a retail business, one of the largest logistics operators, as well as a food producer running our own agricultural facilities.

Magnit has millions of daily touchpoints with its stakeholders: customers, employees, shareholders and suppliers.

The customer is always the centre of our focus: all our activities are built around them, thus strengthening our competitive advantages and exploring new areas of development.

At the heart of Magnit’s sustainable development is a commitment to the principles of responsible business aimed at creating value for all stakeholders. We create economic opportunities for our partners and suppliers, a collegiate and safe work environment for our employees, support our local communities, and provide our customers with high-quality products and services.

Sustainability Strategy

This strategy is based on the 10 principles of the UN Global Compact and the 17 UN Sustainable Development Goals, as well as stakeholder expectations.

Magnit has set 5 ambitious goals in the field of sustainable development:

— we want to be the leader in environmental impact reduction in the Russian retail industry
— we want to make a positive impact on the quality of life of all Russian people
— we want to be the number one employer in the Russian retail industry
— we strive towards a 100% responsible supply chain
— we want to have best in class Corporate Governance in the Russian retail industry.

In 2020, with a view to channelling our sustainable development activities effectively, Magnit developed and implemented the Sustainability Strategy 2025.

Our sustainable development focus areas are as follows:

— environment
— sustainable sourcing
— employees
— local communities
— health and wellness of all stakeholders

In 2020, 82% of the world's largest companies published their commitments to achieve the SDGs1 in annual reports. 79% of the world's largest companies conducted an analysis of the relevance of their activities to SDGs. Magnit’s sustainability commitments for 2025:

**Environment**

- 50% packaging for PL and own production will become recyclable, reusable and compostable
- 100% collection and processing of recyclable plastic in Magnit’s own operations
- 50% waste reduction
- 30% GHG emissions reduction
- 25% reduction in water and energy consumption

**Sustainable sourcing**

- 100% responsible sources of socially significant goods
- 100% responsible approach in own production and agriculture
- Increase in the share of eco-friendly packaging on shelves

**Employees**

- 70% employee engagement
- 50% reduction of lost time incidents with zero fatalities
- 40% maximum turnover rate

**Local communities**

- 10% Company employees participating in volunteer programmes

**Healthy lifestyle**

Healthy lifestyle and nutrition information is available to all customers

**Healthy food**

Healthy food is available to all customers

Sustainable development (continued)

Management of sustainable development issues

Corporate initiatives

Overall responsibility for sustainable development lies with the Company’s Board of Directors. In 2020 the Board established the Sustainability Steering Committee which has responsibility for the day to day coordination of the sustainable development programme. The Committee is responsible for providing recommendations on embedding sustainable practises throughout the business and targeting social, environmental, resource and energy issues. Under the supervision of this Committee, there are 16 working groups responsible for creating sustainable business models for all areas of our operations: retail, production, sourcing, logistics and human resources management. The Committee reports to the Board of Directors.

To drive the sustainability agenda forward, the Committee made a number of recommendations during 2020. These included a proposal for a more structured and formal programme for sustainability initiatives, inclusion of the sustainability agenda in the operational and strategic processes of each business unit and the launch of an internal communication campaign on sustainability for Company employees.

Communication within Company is carried out through weekly and monthly digest mailings, posts on social media, workshops and events organised for employees.

Magnet has adopted policies regulating the Company’s sustainability operations and formally announced its Human Rights Policy, which defines the Company’s key values in terms of respect for human rights. Magnet opposes child and forced labour in any form as well as discrimination on any ground and builds an inclusive and diverse working environment. Magnet also launched an Anti-corruption Policy which is based on a zero-tolerance approach to corruption in any form. One of the measures to prevent corruption risk is compulsory anti-corruption training for employees.

1,227 employees were trained in anti-corruption in 2020.

The UN’s priority sustainable development goals of Magnet Group

In 2020, Magnet joined the UN Global Compact. The initiative aims to encourage social responsibility amongst businesses and brings together more than 13,000 participants from 160 countries to promote sustainable business practices. Magnet will adopt the 10 principles of the Global Compact across its business, with particular focus on human and labour rights, environmental protection and anti-corruption.

Magnet seeks to contribute to achieving the UN’s Sustainable Development Goals. The Company has chosen seven sustainable development goals as a priority based on the most relevant topics and focus areas identified under the Sustainability Strategy.

External initiatives

Interaction with stakeholders

Magnet has several stakeholder groups and engages in an open dialogue with each of them on a regular basis. The Company’s interaction with stakeholders is built on the principles of respect for stakeholders, transparency, regularity, and compliance with obligations.

The Company has identified a number of key stakeholder groups whose interests are most closely related to its activities:

- customers
- shareholders
- suppliers
- public authorities
- employees
- public organisations
- society and local community
- mass media
- investors

Each group has its own needs and interests. Therefore, Magnet uses various communication channels to effectively interact with them.

For more information on achieving the UN’s Sustainable Development Goals, see Magnet’s Sustainability Report.
